

REMARKS

This paper is in response to the Office Action of February 8, 2006. A one month extension is hereby requested. The present case is a Divisional Application, as noted in the claim of priority, which was amended in this paper. A replacement sheet for Figure 5 is enclosed.

Figure 5 has reference numbers 130, 131, 133 and 134 removed. These numbers are not necessary to read the application or the figure elements, which are well known logic gates and a box labeled "checking logic." Accordingly, the objection to the drawings should be overcome by the submission of the replacement drawing for Figure 5. The title was amended as suggested by the Examiner.

Claims 1-25 were cancelled. Claims 1-25 were the subject of the parent application, now issued as US 6,665,796. The statutory double patenting reject is therefore obviated. A terminal disclaimer is attached to overcome obviousness double patenting rejection.

The claims were amended to overcome the rejections under § 112.

Accordingly, the application is in condition for allowance.

If the Examiner has any questions concerning the present amendment, the Examiner is kindly requested to contact the undersigned at (408) 749-6903. **Please charge the one month extension to the deposit account, in the amount of \$120.** If any other fees are due in connection with filing this amendment, the Commissioner is also authorized to charge Deposit Account No. 50-0805 (Order No. SUNMP212D). A duplicate copy of the transmittal is enclosed for this purpose.

Respectfully submitted,
